Managed Offices

1<sup>st</sup> Floor, 2 Hailetop, Wythenshawe Town Centre, M22 5RQ

## Introduction

Wythenshawe Town Centre have partnered with Connect by Essensys to deliver a full range of services to our managed office space that meet the needs of even the most demanding professional, with a dedicated support team always on hand.

Our newly refurbished workspace now benefits from a dedicated industry leading service, with access to state of the art products, which will allow your business hit the ground running.

## IT and Telecoms

Our fully functional high specification telecoms systems will enable your business to be up and running in an instant.

Voice over IP (VOIP) business phone systems, using data network infrastructure to distribute telephone calls, allow us to deliver a wide range of benefits. The system offers an openly accessible personal user interface, allowing control and monitoring of specific functionality from the desktop. IT Packages can be specifically designed to provide fully managed instant setup and support.

Our business centre workspace provides business SDSL which is a premium "Symmetric digital subscriber line" ( a broadband service) for businesses with a high data or bandwidth requirements. With SDSL you can download and upload at the same speed.

Designed with the needs of business in mind, SDSL technology gives you a dedicated high-speed internet connection that is fast, efficient and economical.
